

1. GREENHOUSE GAS EMISSIONS (ABSOLUTE)

MILLION METRIC TONS OF CO₂ Equivalents

2. WASTE DISPOSED

MILLION KILOGRAMS

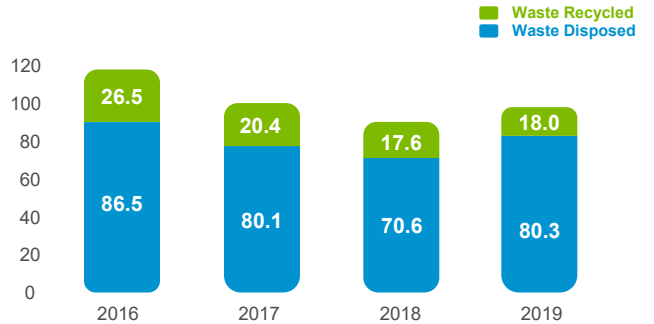

3. WATER WITHDRAWAL EXCLUDING NON-CONTACT COOLING WATER

MILLION m³

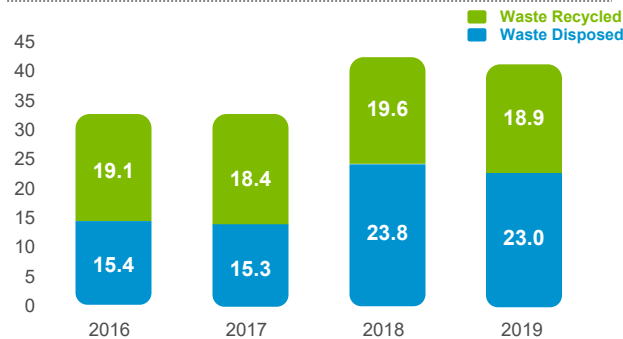

4. HAZARDOUS WASTE DISPOSED & RECYCLED

MILLION KILOGRAMS

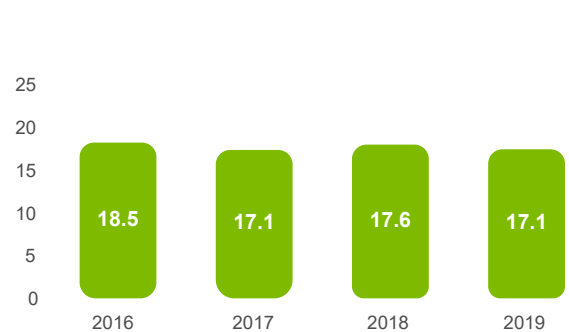

5. NON-HAZARDOUS WASTE DISPOSED & RECYCLED

MILLION KILOGRAMS

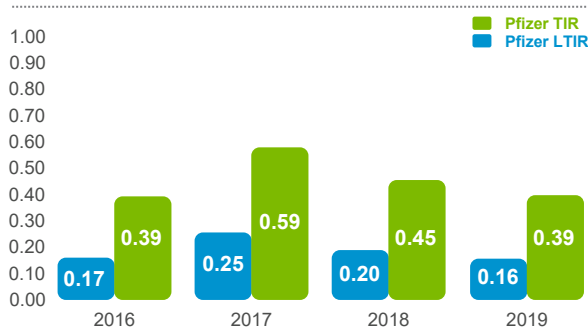

6. ENERGY USE

MILLION GIGAJOULES

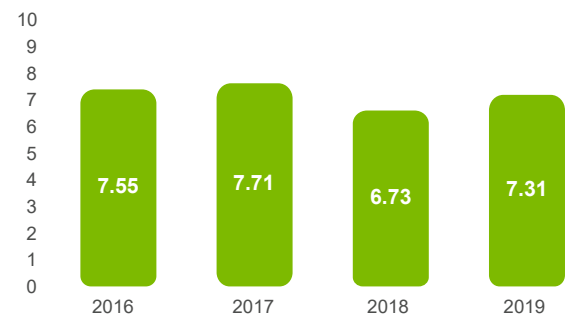

7. INJURY & ILLNESS RATES

CASES PER 100 COLLEAGUES

8. GLOBAL COLLISIONS PER MILLION KILOMETERS DRIVEN

SCOPE

Data scope is directed by Pfizer's EHS Standards and includes all sites within Pfizer's operational control

NOTES

*Baseline Year for 2020 Environmental Sustainability Goal.

All environmental data is baseline adjusted in accordance with the WRI Protocol for reporting GHG emissions.

Progress on Our 2020 Environmental Sustainability Goals

| INDICATOR | 2019 | Δ 2018-19 | Δ 2012-19 | NOTES |
|---|-------|-----------|-----------|--|
| GRAPH 1 ABSOLUTE GREENHOUSE GAS EMISSIONS (Million Metric Tons CO ₂ eq) | 1.50 | ↓5% | ↓25% | Pfizer is on track to deliver the 2020 GHG emissions reduction goal of 20% compared to a 2012 baseline. |
| SCOPE 1 EMISSIONS (Million Metric Tons CO ₂ eq) | 0.73 | ↑2% | ↓27% | |
| SCOPE 2 EMISSIONS (Million Metric Tons CO ₂ eq) | 0.76 | ↓11% | ↓23% | |
| GRAPH 2 WASTE DISPOSED (Million Kilograms) | 103.3 | ↑9% | ↓15% | Pfizer is on track to deliver the 2020 waste disposal reduction goal of 15% compared to a 2012 baseline. The amount of waste recycled in 2019 was 37 million kilograms. |
| WASTE RECYCLING RATE (Percent) | 26 | ↓7% | ↓14% | |
| WASTE GENERATED (Million Kilograms) | 140.2 | ↑7% | ↓20% | |
| GRAPH 3 WATER WITHDRAWAL EXCLUDING NON-CONTACT COOLING WATER (Million m ³) | 15.05 | ↓3% | ↓14% | Pfizer is on track to deliver the 2020 water withdrawal (excluding non-contact cooling water) reduction goal of 5% compared to a 2012 baseline. Pfizer continues to implement opportunities for water conservation. |
| WATER WITHDRAWAL INCLUDING NON-CONTACT COOLING WATER (Million m ³) | 36.30 | ↑1% | ↓22% | |
| SUPPLY CHAIN ENVIRONMENTAL SUSTAINABILITY % of key suppliers supporting Pfizer's supplier code of conduct (Goal=100%) | 90% | ↑2% | NA | 2016 is the baseline year for the Supply Chain Environmental Sustainability Goal. Key suppliers are defined as major contributors to our external environmental footprint; strategic collaborators with Worldwide Research and Development; and those suppliers we anticipate having continued involvement with. |
| % of key suppliers supporting Pfizer's supplier code of conduct and align with PSCI principles (Goal=100%) | 90% | ↑2% | NA | |
| % of key suppliers managing their environmental impacts (Goal=100%) | 88% | ↑5% | NA | |
| % of key suppliers with reduction goals for GHG; waste disposal and water withdrawal instituted (Goal=90%) | 49% | ↓6% | NA | |

NOTATIONS

GHG = greenhouse gas
 VOC = volatile organic compound

↓ = decrease (reduction)
 ↑ = increase

Key suppliers in scope reflect the pre-Hospira sourcing strategy.

Other EHS Performance Data

| INDICATOR | 2019 | △ 2018-19 | △ 2016-19 | NOTES |
|---|---|-----------|--|---|
| GRAPH 4 HAZARDOUS WASTE DISPOSED (Million Kilograms) | 80.3 | ↑14% | ↓7% | The amount of hazardous waste recycled in 2019 was 18 million kilograms. |
| HAZARDOUS WASTE RECYCLING RATE (Percent) | 18 | ↓8% | ↓22% | |
| HAZARDOUS WASTE GENERATED (Million Kilograms) | 98.3 | ↑11% | ↓13% | |
| GRAPH 5 NON-HAZARDOUS WASTE DISPOSED (Million Kilograms) | 23.0 | ↓3% | ↑49% | The amount of non-hazardous waste recycled in 2019 was 18.9 million kilograms. |
| NON-HAZARDOUS WASTE RECYCLING RATE (Percent) | 45 | ↑0% | ↓18% | |
| NON-HAZARDOUS WASTE GENERATED (Million Kilograms) | 41.9 | ↓3% | ↑21% | |
| GRAPH 6 Energy Use (Million Gigajoules) | 17.1 | ↓3% | ↓8% | Reduction achieved through energy conservation projects and site consolidation. |
| GRAPH 7 TOTAL INJURY & ILLNESS RATE (Recordable cases per 200,000 hours worked) | 0.39 | ↓12% | 0% | Pfizer's global injury rate is based on OSHA recording criteria. Our overall rates show improvement, tragically two serious incidents resulted in fatal injuries to colleagues. |
| LOST TIME INJURY & ILLNESS RATE (Lost time cases per 200,000 hours worked) | 0.16 | ↓20% | ↓5% | Injury rates from incidents involving 1 or more days away from work. |
| GRAPH 8 FLEET SAFETY (Collisions per Million km Driven) | 7.31 | ↑9% | ↓3% | Pfizer has an active Driver Safety program which includes driving related to Pfizer sales and marketing activities. |
| NOTATIONS | GHG = greenhouse gas VOC = volatile organic compound | | ↓ = decrease (reduction) ↑ = increase | |

Other EHS Performance Data

| INDICATOR | 2019 | Δ 2018-19 | Δ 2016-19 | NOTES |
|---|---|-----------|--|--|
| SUPPLIER EHS ASSESSMENTS (Count of assessments at supplier facilities) | 102 | ↑4% | ↑1% | The number of supplier EHS assessments is subject to change each year dependent on time since last assessment and other factors. In addition to these routine EHS assessments that Pfizer undertook in 2019 we also completed a number of focused environmental assessments. |
| VOLATILE ORGANIC COMPOUND EMISSIONS (Thousand kg) | 397.7 | ↓9% | ↓23% | Emissions represent a very small percentage of total VOC use (<1%). |
| OZONE DEPLETION POTENTIAL (ODP) (kg R-11 Equivalents) | 650 | ↑141% | ↑25% | ODP was higher in 2019 due to more releases of Ozone Depleting Substances (ODS); reduction in the use and release of ODS continues. |
| COMPLIANCE (Penalties paid - currency equivalent in thousand USD) | \$12.5 | ↓39% | ↓94% | Settlement costs were paid to address matters where non-compliance with EHS regulation or law was alleged. |
| NOTATIONS | GHG = greenhouse gas VOC = volatile organic compound | | ↓ = decrease (reduction) ↑ = increase | |
